

To do good
you actually
have to do something!

Eco Calendar 2023

NOVEMBER

3 GOOD HEALTH AND WELL-BEING

Cut Your Carbon is our month-long carbon-cutting challenge. The campaign challenges young people and their families to complete nine simple actions that will reduce their carbon footprint. Cut Your Carbon is a great way to learn more about the carbon emissions connected to everyday actions and how we can reduce them by making small, manageable changes.

5 GENDER EQUALITY

Around 60% of young people are 'worried' or 'extremely worried' about climate change, (according to a global survey conducted by Bath University in 2021) so we want to highlight the amazing career pathways they can follow to improve the future climate.

6 CLEAN WATER AND SANITATION

The popular energy-saving campaign is back! They have an exciting competition for students, an energy-saving dashboard to help you track your savings and resources aplenty to support your campaign.

7 AFFORDABLE AND CLEAN ENERGY

What makes you want to buy things you do not need? Do new things really make you happy? Consider the real cost of new purchases - how does buying new things impact the planet, the people producing the things you buy, your wellbeing, and your wallet

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

13 CLIMATE ACTION

Protecting Our Planet Day (POP) is the inspiring live-streamed event for schools brought to you by the UK Space Education Office (ESERO-UK) at STEM Learning and in collaboration with the European Space Agency and the UK Space Agency.

15 LIFE ON LAND
