A YEAR OF ACTION

Eco Calendar 2023

SEPTEMBER

Introduction to the 17 UN sustainable goals.

Consider registering your school in these programmes to help you and your school to adopt sustainable habits.

Set the rules and expectations with your pupils and other members of staff about reducing waste.

Share with your students an environmental success story that proves that with everyone's cooperation, huge challenges can be reverted.

Have a discussion with your pupils: Is peace on Earth possible?

Car Free Day: Let's do the Maths!

On World Rivers Day, share a happy story of how the most polluted river in the world has been cleaned.

It's a great way to celebrate the huge benefits an active school run brings including the positive impact it has on children's health and wellbeing, on local air quality, and on carbon emissions.
