

## Youth Climate Summit 2020 Careers Conversations: Thursday 12 November 1-2pm

Youth Climate Summit ambassadors and London Schools Eco-Network members  
Alina, Tian, Rhiana and Emer in conversation with...

<p><b>Professor Angela Druckman</b></p>  <p><b>Professor of Sustainable Consumption and Production, University of Surrey</b></p> <p>Angela is the lead at the <a href="https://www.surrey.ac.uk/sustainability">University of Surrey</a> for Sustainability in the Curriculum. She read Engineering at Cambridge University, and achieved Chartered Engineer status. She subsequently lectured in electronics, developed a highly successful IT company, and campaigned on climate change issues. Her current research focuses on investigating avenues to more sustainable lifestyles.</p>	<p><b>Shailja Dubé</b></p>  <p><b>Institute of Positive Fashion lead, British Fashion Council</b></p> <p>Shailja has over 18 years' experience across multiple industries, including transformation programme, innovation, business strategy, market growth and sustainability. After working as Responsible Retail Lead at Accenture, she wanted to focus on how to make the UK fashion industry more sustainable and is now the Institute of Positive Fashion lead at the <a href="https://www.britishfashioncouncil.com">British Fashion Council</a>.</p>	<p><b>Anna Brightman</b></p>  <p><b>Co-founder, UpCircle Beauty</b></p> <p>When Anna discovered that more than 500,000 tonnes of coffee grounds consumed each year in the UK alone are sent to landfill, she decided to start collecting coffee from cafes across London and transforming them into skincare products. Since launching 4 years ago <a href="https://www.upcirclebeauty.com">UpCircle Beauty</a> has saved over 275 tonnes of coffee. The brand also rescues and reuses ingredients from the argan, tea, juice, date, olive and wood industries.</p>	<p><b>Virginia Cinquemani</b></p>  <p><b>Director and Founder, Green Gorilla Consultants Ltd</b></p> <p>Virginia is a qualified architect, project manager, environmental consultant, trainer and coach. Through <a href="https://www.greengorilla.co.uk">Green Gorilla Consultants Ltd</a>, she helps sustainability professionals make an impact by using their communication, negotiation, selling and empathy skills.</p>
<p><b>Jonathan Riggall</b></p>  <p><b>Director, Energy and Natural Resources team, Stantec</b></p> <p>Jonny studied Environmental Archaeology at Edinburgh University and worked in the Caribbean for marine conservation organisations to gain formal experience in the environment sector. He has worked for organisations as varied as BT, Morrisons and the Duchy of Lancashire to help understand the impacts of climate change, and now works at <a href="https://www.stantec.com">Stantec</a>.</p>	<p><b>Orlando Gibbons</b></p>  <p><b>Structural Engineer at Arup &amp; Built Environment Lead, COP26 Climate Champions Team</b></p> <p>Orlando is a structural engineer with a passion for minimising the environmental impact of the built environment. Since graduating from the University of Cambridge in Civil, Structural and Environmental Engineering, he has worked in <a href="https://www.arup.com">Arup</a>'s Buildings Team and as a sustainability consultant.</p>	<p><b>Dr Jessica Tipton</b></p>  <p><b>Ex Defra policy advisor &amp; founder of London Schools Eco-Network</b></p> <p>Jessica studied languages and music. For 10 years she played clarinet in a trio alongside policymaking in the Department for Environment (Defra), including on the Marine Bill, sustainable farming and 25-year Environment Plan, and a secondment to charity Children &amp; the Arts. She now teaches Russian and French at St Paul's Girls' School where she is Head of Sustainability.</p>
